

ST. THOMAS' COLLEGE OF ENGINEERING & TECHNOLOGY

Campus & Infrastructure

Facilities • laboratories • library • cells • digital infrastructure • student services

Purpose: detailed institutional context for a college-information / RAG hackathon project.

1. Campus Context

- The college is located in the Kidderpore/Khiderpore area of Kolkata. The starter context places students within the city's broader educational, industrial and technology ecosystem.
- For a college assistant, location is not just an address: it can be connected to campus services, academic departments, events, industry visits and external opportunities.

2. Academic & Laboratory Infrastructure

- The starter context identifies laboratories, classrooms, computer facilities and campus services as key information categories.
- The official department structure provides laboratory pages for CSE, IT, ECE and EE, and dedicated technical-staff information for departments.
- CSE additionally describes a research laboratory and specialized project laboratory supporting research-oriented and industry-oriented projects.

3. Central & Student-facing Facilities

- The official institutional-cell directory lists the Central Library & Information Center, Sports & Games Cell, Co-Curricular Activity Cell, Extracurricular Activity Cell, Social Service Club + Cultural Club, Mentoring Cell and Grievance Redressal Committee.
- These should be indexed as separate facility/service entities because a student may ask a direct operational question about one cell.

4. Digital & Administrative Infrastructure

- The official cell list includes Electrical/Computer Network/Maintenance Cell, Website Cell, MOOCS Cell, Laboratory Cell, Admissions/Registration Cell, Examinations Cell, Time-Table Cell and Purchase/Stores Cell.
- Internal Quality Assurance, Publication, R&D, Innovation Council and Industry Institute Interaction/Consultancy extend the infrastructure beyond physical facilities.

5. Library & Digital Learning

- STCET's Central Library resources include NDLI membership. The official NDLI page says the college's NDLI Club supports learning-oriented online/offline events and had nearly 1,453 registered members including faculty and students when the page was crawled.
- This is useful for a knowledge base because library, digital-learning and event information can be connected.

6. Infrastructure RAG Questions

- Where is STCET located?
- What laboratories are associated with CSE/IT/ECE/EE?
- What student support cells exist?
- What facilities support research and projects?
- What library/digital learning resources are available?

Source & data-quality note

This document combines the attached STCET starter-context PDF with current official STCET web information where explicitly indicated. The attached source describes itself as a structured starter context for RAG experimentation and says that current admissions, fees, placement statistics, examination dates, contacts and other time-sensitive data must be populated from current official sources before deployment. ■filecite■turn0file0■L55-L69■

Official web sources used for current verification include the STCET Faculty Members directory, Courses/Programme pages, Institute Cells directory and Training & Placement Cell. These sources should remain the preferred authority for live answers.
