

ST. THOMAS' COLLEGE OF ENGINEERING & TECHNOLOGY

Administration, Governance & Institutional Cells

Administration • committees • examinations • quality • student support

Purpose: detailed institutional context for a college-information / RAG hackathon project.

1. Administrative Ecosystem

- The college information architecture separates academic administration, academic calendar, departments, institutional cells/committees, examinations, admissions and student-support functions.
- For RAG, each administrative function should be indexed as its own topic because students often ask operational questions rather than broad institutional questions.

2. Official Institutional Cells

- The current official directory lists Admissions/Registration, Alumni Coordination, Anti-Ragging, Canteen/House-Keeping/Hygiene/Sanitation, Central Library & Information Center, Co-Curricular Activity, Electrical/Computer Network/Maintenance, Entrepreneurship + Skill Development, Examinations, Extracurricular Activity, Grievance Redressal, Industry Institute Interaction + Consultancy, Institutions Innovation Council, Internal Committee, IQAC, Laboratory, MAR, Mentoring, MOOCS, Publication, Purchase/Stores, R&D;, SC-ST/EOF, Sports & Games, Time-Table, Training & Placement and Website cells.

3. Examination Administration

- The official Examinations Cell describes responsibilities including overseeing internal and university examinations, compliance with affiliating-university rules and timelines, examination-calendar preparation, student exam registration, invigilator duties, collection/verification/submission of internal-assessment marks and maintenance of examination records.
- This is particularly important for a student assistant because exam-related answers are time-sensitive and should retrieve current notices.

4. Quality & Student Welfare

- Internal Quality Assurance provides an institutional quality function. Anti-ragging, grievance redressal, mentoring and SC-ST/EOF support are separate welfare/administrative categories.
- A good assistant should route sensitive or procedural questions to the appropriate official policy or cell document rather than improvise.

5. Governance RAG Schema

- cell_name, purpose/function, coordinator, members, contact, process, document_type, academic_year, effective_date, source
- Questions: Which cell handles an issue? What does the Examinations Cell do? Where should a student look for a grievance procedure? Which cell handles placements?

Source & data-quality note

This document combines the attached STCET starter-context PDF with current official STCET web information where explicitly indicated. The attached source describes itself as a structured starter context for RAG experimentation and says that current admissions, fees, placement statistics, examination dates, contacts and other time-sensitive data must be populated from current official sources before deployment. ■filecite■turn0file0■L55-L69■

Official web sources used for current verification include the STCET Faculty Members directory, Courses/Programme pages, Institute Cells directory and Training & Placement Cell. These sources should remain the preferred authority for live answers.
